Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6tf

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Dove & Painter, the photographers of Pacific Coast fame are now in Carson City with a complete outfit. The Nevada Democrats will assemble at Winnemucca today and kick the stuffing out of Cleveland's silver record.

Sweeny will take the balance of his colts to California to sell. He is going to a place where horseflesh is appreciated.

The Indians are lighting signal fires on the mountains at night preparatory to starting a jack rabbit drive.

Both the Examiner and Chronicle got out splendid editions on the arrival of the editorial fraternity in San Francisco.

There will be a shortage of flowers from local gardens on Decoration day on account of the lateness of the season.

Bob Gray as a painter and grainer is a howling success. He has decorated the front of his saloon like a pupil of an old master.

M. Cohn: "The APPEAL is a d—d sight better Democratic paper than Republican."—Tribune, as a quotation from Mr. Cohn which he says is a deliberate lie.

After the second count of the school ballots Thaxter remarked: "By thunder, let's count again," and Summerfield said with sad accents in his voice: "Haden't we better quit counting."

The Truckee is booming. The warm weather is causing the snow to melt rapidly in the mountains, hence high water in the river. There is enough water running down the stream to present to irrigate half the State.

The advocates for the \$10,000 repairs proposition are accused of voting foreigners. It is said that the \$40,000 parties talked of doing so, but Tremore Coffin would not allow it, after which Sardis Summerfield led the crowd in prayer, all kneeling.

Cagwin & Noteware has a lot of folding cots, camp stools, chairs and tables made to pack in a small space. You can almost carry them in your hat and have all the luxuries of home under the greenwood tree, and at the same time be safe from crawling insects and snakes.

The Silver State says Major Grindall, who has been in Colonel Hardie's employ for years, had his left leg broken below the knee at Hardin's ranch at Quin river by a kick from a vicious horse. The Major was taken to Winnemucca and placed in charge of Dr. Hanson.

The Water Co. will soon issue a copy of the ordinance to prevent the use of water for irrigation and street sprinkling during the existence of a fire. By paying attention to this law it may be the means of saving considerable property inasmuch as it will give the fire hose more water and greater pressure.

The miners of the Comstock are the best paid laborers in America. They live like kings, their hours are short, their wages liberal and their duties pleasant. They dine at French restaurants and smoke two bit cigars. It is as it should be, and the necessity for free coinage ought to arouse them to united action for self interest.—Journal.

The refusal of Mrs. Olrichs to allow the \$250,000 left by her mother, to go to a Catholic College makes one feel that the close fist methods of Senator Fair runs through his daughter's blood. The bequest was made by Mrs. Fair in her right mind and she talked of it a very long time before her death. She was a good generous hearted woman and her daughter should have respected her mother's memory sufficient to have honored the draft of the dead on her inherited millions. But the daughter was true to the blood of her clan and her parsimony got the better of her judgment and the respect for the woman who gave her birth.

Virginia Society Notes.

On last Tuesday night a miner in Virginia City came home rather early and found a man just getting out of the back window of his wife's bedroom.

His flight was so hasty that he neglected to take his pants along.

The miner examined the pants and found \$85 in the pockets and also recognized them sufficiently to identify the owner who was a gay butcher in the city.

Next morning he walked into the shop, and flinging the pants down on the block, remarked:

"Here's the balance of your clothes; guess I'll keep the money." The miner then left on the next train for California.

Persons should be careful about having much money on their clothes when on such expeditions.

\$10.00 Reward.

GEO. H. IRELAND,

Sapphire Lodge, 427, A. F. & A. M., Hull Iowa.

A Peculiar Case.

The Comanche Indian Doctor has been called on to pay a license for practicing medicine. He declines on the ground that there is a special law of Congress exempting Indians from paying license. Congressman Woodburn has been employed for the defense and the case comes up in the Justice Court today at 2 o'clock, it being postponed from yesterday.

LATER—In the afternoon Sardis Summerfield appeared before Justice Hawthorne and stated that he had not sufficient ground on which to prosecute under the law, and the Justice thereupon dismissed the case.

Rough on Cohn.

Many people were quite surprised when they saw by the Tribune that M. Cohn had stopped his subscription.

Nobody knew before that Cohn took the paper and they were surprised that a man like Cohn who is always talking State development should take a paper whose publisher makes a practice of sending all the money he makes in Carson to California for investment.

Cohn ought to be heartily ashamed of helping along a concern with such peculiar principles.

Friction in the Party.

Nevada is having about the same wrangle over offices as California.

In California the friends of De Young say that Felton's friends agreed to make DeYoung Felton's successor if the former would stand in when Felton was elected.

The friends of Newlands now claim that Bartine's friends agreed that Newlands would be his successor if he stood in for Bartine two years ago.

The wrangle is liable to make trouble in the party if it is not soon settled.

Suicide at Willow Creek.

John H. Everts, an old and respected resident of Humboldt, who has been employed at the Hoppin ranch at Willow Creek for the past twenty years, committed suicide last Sunday morning. He had been moody and seemed rather despondent for several days previous, but no one for a moment suspected that he contemplated killing himself. He left the ranch about 6 o'clock Sunday morning, taking with him a Winchester rifle. It was naturally supposed that he was going hunting, as he was in the habit of doing, and nothing was thought of the circumstance until evening when his failure to return aroused suspicion that all was not right. A search was made but it proved to be fruitless and next morning Thad Hoppin started out a couple of Indians to find him. They soon struck the trail and came upon Evert's dead body about a mile and a quarter from the ranch.

There was a bullet hole in the body, the ball entering below the left nipple and coming out at the right shoulder blade. From the position in which the body was found there is no doubt but that it was a case of suicide. Justice McLeran of Willow Creek held an inquest yesterday, and the jury found a verdict to the effect that Everts came to his death at his own hands. He was 42 years of age and unmarried.

Thad. Hoppin, James Minor and N. W. Willis arrived from Willow Creek this morning with the body, which will be taken to Woodland, Cal., for burial. Everts' mother and four sisters reside at Woodland.—Silver State.

A Flying Trip.

Last evening the editor of the APPEAL left for San Francisco to attend the Editorial Convention. He had decided not to go until he saw the picture of his wife in the Examiner and concluded that she had changed so much since he last saw her that he would go down and take a look at her!
